Dr. Dianne Nielson, Director
Division of Oil Gas & Mining
335 West North Temple
3 Triad Center, Suite 350
Salt Lake City, UT 84180-1203

Dear Dr. Nielson:

Re: Five-Year Permit Renewal Review, Utah Fuel Company's Skyline Mine

Submitted herewith are fourteen (14) copies of the Utah Fuel Company Mining and Reclamation Plan renewal application. This response meets the schedule outlined by the Division.

The material presented in this Mining and Reclamation Plan renewal (Volumes 1 through 5) represent document updates and pertain to mining activities during the next five years. Referenced material, such as consultants reports and other documents which have not changed, were previously submitted as part of the current mining plan. These documents, Volume A-1 through A-4, dated 1986 and bound in blue binders, should be retained as part of the new Mining and Reclamation Plan.

The engineering calculations applicable to the M&RP renewal have been separately included as Volume 5. This indexed volume is designed to facilitate the review process.

Should a review of this submittal identify the need for additional information or for clarification of any items, please notify us immediately.

We appreciate the assistance and cooperation of your staff in the preparation of this renewal application.

Sincerely yours,

Vernal J. Mortensen
Senior Vice President

VJM/ak/1809
